

# First Announcement

## NATIONAL DENGUE AND ARBOVIRUSES INFECTION

CONFERENCE : 12-13 August 2017

Are we winning the battle?

Berjaya Times Square Hotel, Kuala Lumpur, Malaysia

With the support of the Ministry of Health Malaysia, the Tropical Infectious Diseases Research & Education Centre (TIDREC), WHO Collaborating Centre (WHOCC) for Arbovirus Reference & Research, Malaysian Society of Infectious Diseases & Chemotherapy (MSIDC), Academy of Medicine (College of Pathology) and Malaysian Public Health Physician Society have taken the initiative to provide a platform to address various pertinent issues on the challenges, diagnosis, treatment and best practices in managing Dengue and Arboviruses infection.

The organizers have jointly put together a comprehensive programme which features update on clinical, laboratory diagnosis and public health approach covering the topics below by the experts from Malaysia and Asia.

### HIGHLIGHTS:

- Dengue as a global health threat in Western Pacific Region
- Evolution of dengue viruses in recurring dengue outbreaks
- Asymptomatic Dengue - How big is the threat?
- Severe Dengue In Paediatric
- Clinical Diagnosis Dilemma - Is this Dengue/Chikungunya/Zika?
- Update on Zika Infection and Threat
- Update on Chikungunya Infection
- Clinical manifestation of Japanese Encephalitis (JE)
