\]
Notes:

1. Basis of claim is by contract bill of quantity and not summary LPO.
2. All loose assets to be registered as V9 Table 2 FEMS Equipment and vehicles such as air-conditioning, fire extinguishers etc within same VO period of claim to avoid double claims in future.
3. If segregated, loose assets from Table 1 to be entered as addition in Table 2 such as air-conditioning, fire extinguishers etc, this value to be reduced from item # A.
4. When filling up the VVF Table 1, Concession Company to indicate in the VVF description the contract number of said project.
5. All CMIS data to be inclusive contract number where available.
6. No partial claims of contract value are allowed; full amount must be claimed within the same VO period to avoid over claim.
7. Built-up area of project to be stated (refers to total land area taken up only and NOT total floor area);
   i. Subsequently it must have omission of land in Table 3 within the same VO period.
   ii. Ideally omission of land in Table 3 should be submitted earlier as the project commences because major projects may take time to complete.
   iii. Concession Company would no longer be maintaining the land area during the construction period.
8. For cleansing area, only additional total floor area taken up by said project and preferably to be claimed within same VO period.
9. No claim for cleansing is to be made if previous area was already a cleanable area such as converting one area to another area or upgrading projects without new floor area being added. Claim is only allowed for the total new floor area.
10. All loose and registered assets removed such as air-conditioning etc to be omitted under Table 2 within the same VO period.
11. Ensure relevant building and systems are omitted under Table 1 if demolished and removed but not governed by the above.
12. No project and/or cleansing claims are allowed without any omission of land in Table 3 or V9 for loose assets in Table 2.

**Notes:**
1. Basis of claim is by site plan drawing.
2. Land area refers to total area of belongs to the hospital.
3. Ground maintenance refers to areas of grass/turf and/or idle land not being utilized but maintained by Concession Company.
4. Covered/underground car parks and walkways/pathways (covered/tiled etc) are claimed under Cleansing Table 5 not to be double-claimed under land area in Table 3.
5. Idle land that is not cemented or tarred but utilized for a car parking area is considered ground maintenance and claimable under Table 3.
6. Concession Company to distinguish between on-site and off-site facility.

**Nett claimable cleansing area**

\[ Z = \text{Sum}(Xs) - \text{Sum}(Ys) \]

**Notes:**

1. Basis of claim is by floor plan drawing.
2. Total floor area refers to the perimeter floor area and/or up to perimeter apron for ground floor building structure.
3. Refer to Cleansing POG for definition of claimable cleansing area.
4. Covered/underground car parks and walkways/pathways (covered/tiled etc) are claimable under Cleansing Table 5 and not to be double-claimed underground maintenance.
5. Idle land that is not cemented or tarred but utilized for a car parking area is considered underground maintenance and not claimable under Table 5.
6. Cleansing claim for nurse’s hostel refers to only the common areas within the hostel block.
7. Concession Company to distinguish between on-site and off-site facility.
